

AUTO CHI

The **AUTO CHI** energizes the interior space of vehicles.

Normally there is an energy deficiency in the interior of a vehicle caused by the Faraday cage effect which can lead to exhaustion and fatigue while driving.

Energy flow without AUTO CHI

Energy flow with AUTO CHI

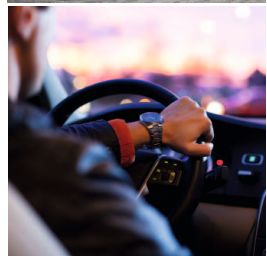

Through the attachment of the AUTO CHI to the front and rear windscreen, the life force (Chi) inside the vehicle increases.

The energy in the interior will be vitalized, which has a positive effect on driver and passengers.

This product is highly recommended for persons who spend a lot of time driving or fatigue easily.

Note: Any possible stroke of lightning will still be diverted by the car body.

TECHNICAL DETAILS

Material: Glass

Size: 3 x 30 mm
