

DOUBLE-LANTOS MIDI

The **DOUBLE-LANTOS MIDI** imbues the wearer gently yet powerfully with light and love. In this field of energy, the soul feels safe and secure; it is aligned. The wearer feels protected in its power and is able to act out of a loving heart quite naturally. The individual vibration frequency is increased.

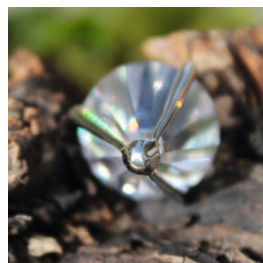

This pendant has a harmonizing effect on geopathic interference fields as well as low electrosmog*.

* All mobile radio devices radiating negative interference fields in close proximity should be harmonized additionally and separately.

The difference between the DOUBLE-LANTOS MINI and the DOUBLE-LANTOS MIDI is in its size and the applied technology (energizing procedure).

We recommend to test the suitable product individually. Our consultants are happy to assist you.

Each piece is unique and hand made.
