

# Y-PRISM

**Y-PRISMS** are combined with the **SPHERE 125** in order to harmonize geopathic influences (Water veins, earth rays, faults etc). They bring pure light into their environment.

For a room harmonization, the **SPHERE 125** is placed approx. in the centre of a living space. The **Y-PRISMS** are placed as follows in the outer corners of the living space (max. distance 12.5 m): side with small triangular area on the floor, so that the 3 edges in Y-shape are facing towards the room (see sketch).

Y-PRISMS are also very suitable for meditation and for meridian cleansing via the hand chakras. They also center people sustainably.

## TECHNICAL DETAILS

Material: Glass

Size: Ø 48 mm
